Philips HD15 PureWave Ultrasound System Vision 2012 Basic System Training Curriculum

Our goal at Philips Healthcare is to provide the clinical education you need to make the most of your equipment investment.

The aim of this comprehensive eight-part series is to provide the Sonographer or Physician with a comprehensive bundle of courses on the HD15 PureWave ultrasound system.

These ASRT-accredited learning modules are self-paced tutorials consisting of enlightening content and colorful images. There are no prerequisites for this course. You may take all 8 courses (5 CEUs) or choose the specific ones that suit your needs:

- System Overview and Getting Started
- 2D Features
- Connectivity Features
- Image Review
- Setup, Measurements, and Calculations
- Reports
- Stress Echo Protocols
- Doppler Imaging

Purchase the educational series directly from the Philips Learning Center by clicking *Register Today*.

Philips courses are designed to educate customers on the leading edge technologies specific to each system and application. In today's healthcare climate, it is critical to use your ultrasound system to its fullest potential. Our goal is to provide the education you need to make the most of your investment.
