Clinical Education

Philips Ultrasound Security Plus eLearning

Are you protecting your medical equipment from patient data breaches?

Designed for Hospital or Health Care IT staff, the Philips Ultrasound Security Plus eLearning module will describe the features available within the Security Plus option.

The Philips Ultrasound Security Plus eLearning module will:

- Introduce you to the enhanced security features including; Access Levels, User Management Policies, Syslog Support, Password and Account Policies.
- Provide additional information to help you successfully configure the system for remote user authentication.

The Security Plus and Safeguard options provide applicable technical safeguards in support of HIPPA requirements.

Our goal at Philips Healthcare is to provide the clinical education you need to make the most of your equipment investment.
